While President-elect Donald Trump can direct the administration to review regulations, including tax regulations implemented through the [Inflation Reduction Act](#) (IRA), Bracewell's **Tim Urban** explained to *Microgrid Knowledge* that the IRA can only be repealed by Congress passing another law.

"If the GOP indeed achieves a so-called 'trifecta' – i.e., control of White House, Senate and House – they will be able to process a budget reconciliation bill nullifying Democrats' ability to filibuster in the Senate," Urban said.
