Nicholas Neuberger is a corporate lawyer with a particular focus on international transactional matters within the energy sector. He has advised on a wide range of cross-border acquisitions in both the public and private sectors, having worked on deals and projects in more than 40 jurisdictions. He has particular experience in the structuring and development of energy projects, including in relation to shareholder and investment arrangements.

His recent engagements include work on the acquisition of one of the largest battery storage plants in development in the UK, the development of a European LNG terminal, as well as advising on the acquisition and joint venture arrangements relating to the world's largest offshore wind farm under construction at Dogger Bank.
